#### SEGMENTED MOB MEETING NOTES MELVILLE CLUBROOMS Thursday 2 May, 2024

Present – Syd Harvey, Aiton Sheppard, Stan Nolan, Ian Hamilton, Ross Flint, Noel Moyes and Ray Dallin.

Apologies – Trevor Flynn and John Townsend.

### WELCOME

Syd welcomed everyone. Most of the morning was spend discussing the Dummy Shell Project and Syd's proposed double Taurus.

#### **COMPETITION ITEMS 2024**

The next item will be the Hollow form for the Mandurah WEW in May.

## DUMMY SHELL PROJECT

Noel has prepared a new cutting list with rings 11 onwards in 12 segments instead of 24. Ross has had no response from West Pine regarding donation of Pine and will follow up. If members are going to collect roof timber off-cuts from building sites they should obtain the builder's permission and wear club shirts. Syd will take his trailer on the scrounge. We still await firm decisions from the Rottnest Island Authority.

### SUGGESTED PROJECTS

- 1. More hands on demonstrations.
- 2. Jig designs and specifications.
- 3. Team project from start to finish at meetings, especially for WAWA competition items.

# AROUND THE TABLE

Ray – brought in a broken side table for advice how to repair and reassemble.

Noel – referred to 'Titebond Ultimate' which allows an 8 minute assembly time. He has made up his hollow form for the Mandurah WEW.

Aiton – brought in more rings that he has made up for two more dummy shell projectiles. He will continue to make up rings from the scrap timber Syd cut for him.]

Syd – brought in the templates he has made up for the double 'Taurus' that he intends to make. The photo is overleaf. Syd will also investigate a new buzzer with helical cutter heads (approx. \$1800)
