A Groovy Grooved Pendant

via Brian Kirkby (WAWA 2099)

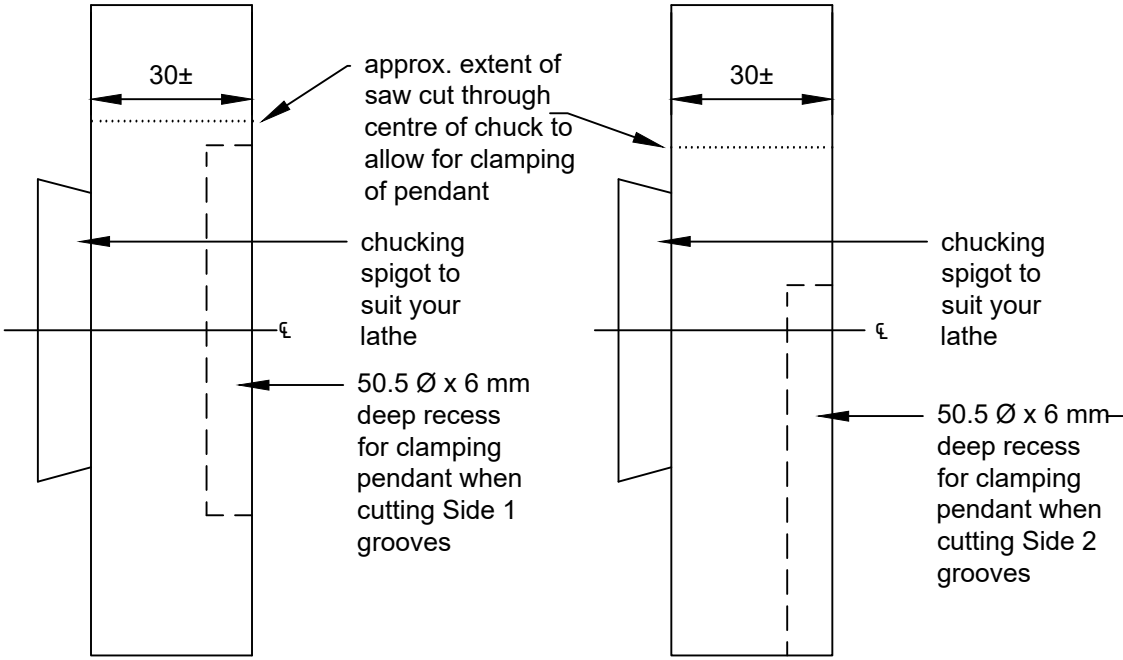

SCALE: Drawn to full size unless otherwise shown
All dimensions are in millimetres
(Check printer settings to ensure full size printing.)

GROOVING TOOL

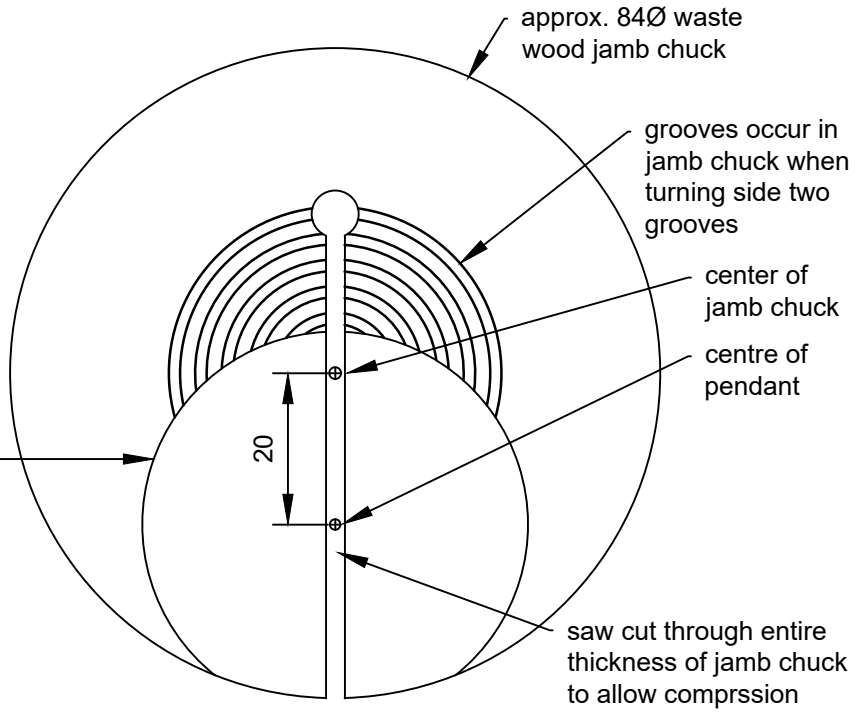

Shown at left is the tip of a tool made by Brian for cutting the 2 mm wide grooves of the pendant.
The steel used is 12 mm wide x 5 mm thick.
The cutting tip is 2 mm wide, just over 3 mm long, and is sloped back at about 45 degrees.

Drawn by Richard Barkman (1842) May 2026
