

HONEY JAR
LID AND BASE
with
HONEY DIPPER

by Mario Baldacchino (WAWA 3203)

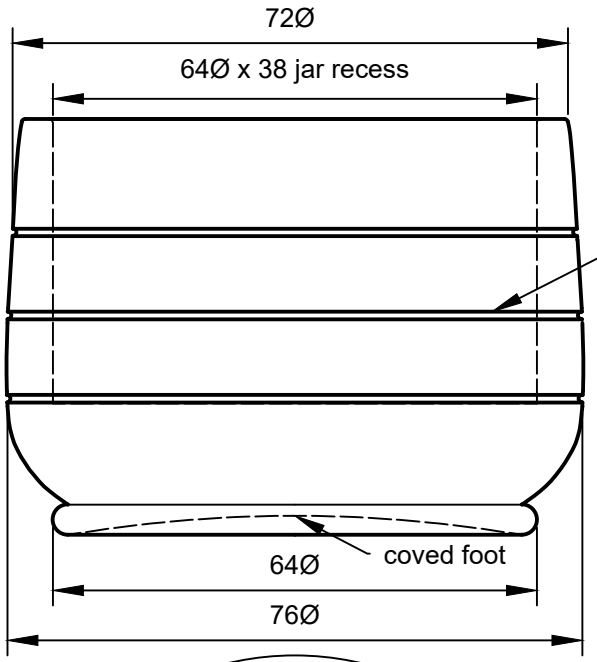

SCALE: Drawn to full size
All dimensions are in millimetres
(Check printer settings to ensure full size printing.)

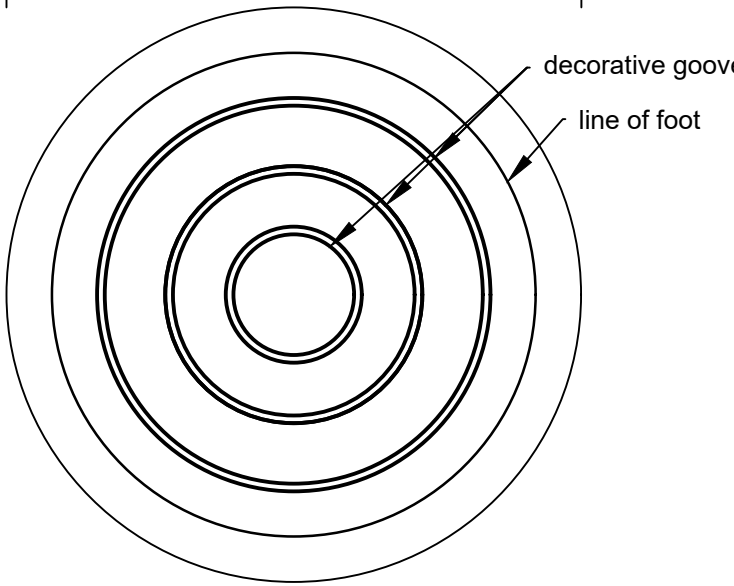

The Honey Jar lid and base shown in these drawings suit a jar obtained from a Red Dot store (ie. lemon & lime Quilted Glass conserve jars 220ml - 3 pack). Vary dimensions as required if using a different jar.

Pictured above is the honey dipper and the jar lid. The metal jar lid is glued into the jar lid cover and has a 19Ø hole drilled in it to accommodate the honey dipper handle.

NOTE: When gluing the jar lid cover to the jar lid and the jar into the jar base:
Use an adhesive suitable for gluing metal, glass and wood.
Make sure contact surfaces are clean and free of contaminants such as oil, grease or dust.

Gluing the jar into the base is optional.
