- MUNDARING.** Every Friday. 7.30pm. Old Parkerville Primary School, Cnr Dura Road and Riley Road, Parkerville.
- NORTH OF RIVER.** 4th Tuesday. 7pm **WOODSTOCK 13 Cressall Road, Balcatta.**

## PRESIDENT'S COMMENTS.

I have had different ones say to me that our weekends are getting stale and at times boring, and in some ways I tend to agree. The first thought that comes to mind is, to ask ourselves, WHAT CAN I DO OR SUGGEST that can assist the committee and convenors to keep up the standard that we have enjoyed in the past, at our weekend workshops. When these meetings are left up to the same people all the time, we fast run out of ideas. So I feel it is up to ALL in the Association to put our heads together and come up with new thoughts as to what we want to see and do at those workshops. We have a lot of new members in our Association, who we have to cater for in the category of basic turning and a lot of us are more advanced and need to be catered for as well. So lets get our heads together YOUNG AND OLD TURNERS and see if WE can make our meetings more interesting.

I find, as I'm sure you all do, the fellowship we experience very uplifting. I don't think there are as many groups around that are as friendly and forth coming in the giving of their knowledge as the members of W.A.W.A. and we must keep it up.

It is up to EACH AND EVERYONE OF US to contribute to the weekends and make them interesting. If you know someone who has a skill or an interesting idea, don't keep it to yourself, please tell the committee or your convenor, so we can organise to share this new knowledge or technique with each other. I'm not only referring to the men in this case, but also to the ladies, because you are also a very important part of our programme.

Russ.

---

### NOTICE OF NEW VENUE, NEW DAY, FROM MIDVALE GROUP.

**New Venue:** Colin Kleinig's new premises  
THE WOODWORKING CENTRE  
36 FARRALL ROAD, MIDVALE.

**New Day:** The second TUESDAY of each  
month commencing 14th  
February, 1995.

---

12.15 Close. Load chuck wagon.

**PATCHWORK REQUIREMENTS. Please bring pieces of cotton 20cm wide, all washed and ironed. A 4B Pencil, Scissors, Needles, Pins and thread to match material.**

**COMPETITION BROOKTON, NOVEMBER**  
**Subject: OIL LAMP.**

**HELPFUL HINTS.**  
**OIL OR LACQUER FINISHES.**

Not a very big entry with only three in each section, but at least it meant that everyone was a winner. The usual standard of workmanship and imagination prevailed. Unfortunately, whilst there was a pretty large crowd, especially on the Saturday, only 53 people voted. Congratulations to all entrants. Possibly many of the rest could do as well, or even better, but we will never know if we don't see your work. So have a go !

**RESULTS.**

- Beginners:** 1st Les Alp - Jarrah (63)  
 2nd Jim McDonnell - Jarrah (61)  
 3rd Cam Chittleborough - Jacaranda (62)
- Intermediate:** 1st Gerald Young - Jarrah/Tas Blackwood(42)  
 2nd John Rieman - Camphor L/Jacaranda(43)  
 3rd Kevin Pritchard - Sheoak (41)
- Open:** 1st Ted Cotgrove - Camphor L/Jacaranda (23)  
 2nd Alan France - Jarrah/Sheoak (22)  
 3rd David Devereux - Spalted Jacaranda (21)
- Ladies Choice:** Ted Cotgrove

The December competition and annual awards have been written up by your new competition organiser - Gerald Young. This therefore, is my last chance to try and encourage more entries and more voters. We have a New Year, a new Organiser and a new Competition, so make a resolution to be in it. I have enjoyed my two and a bit years running the competition. It has been a valuable learning experience for me. All the best for the New Year. Don't forget to make that resolution - HAVE A GO !  
 Happy Shavings - Eric Walker.

**END OF YEAR AWARDS - DECEMBER 94.**

**ANNUAL AWARDS - Cumulative Points Winners.**

- Beginners:** 1st Jim McDonnell  
 Equal 2nd Keith Byfield and David Hunter
- Intermediate:** 1st Gerald Young  
 2nd Kev Bryant  
 Equal 3rd Ray Bowra, Neil Piper,  
 Roger Goldthorp
- Open:** 1st Alan France  
 2nd David Devereux  
 3rd Ted Cotgrove

**BEST THING TURNED.**

- Beginners:** 1st Barry Spencer - Jarrah Oil Lamp (63)  
 2nd Alex Cunningham - Jarrah Table (62)  
 3rd Jim Waters - Jarrah Dip Bowl (61)
- Intermediate:** 1st Neil Piper - Sheoak Clock (43)  
 2nd Geoff Barkla - Jarrah Stand (44)  
 3rd Gerald Young - Jarrah Bowl (41)
- Open:** 1st Alan France - Jarrah Vase (25)  
 2nd John Lathwell - Jarrah S/Lamp (23)  
 3rd Viv Paust - Jarrah Collage (28)

Gerald Young.

*There are many ways of finishing wood - this is just one of the ways to do it. I don't like to fill the grain because I like to keep the texture of the grain natural. I use 80, 100, 120, 150, 180 and 220 grit papers. I make sure I never miss a grade. It is very important that your sanding is perfect and you have removed ALL tool and sanding marks. The finish will only be as good as the finish from your sanding.*

*When you are happy with your sanded finish, spray the surface with Methylated spirits and burn it. This process will only burn for a few seconds. It will dry the surface and lift the grain. Take a piece of worn 220 grit paper and re-sand the surface. This will leave the surface ready for the sanding sealer of your choice. I use one part Mirotone to 30 parts of thinners.*

*For an oil finish, I brush on one good coat of sanding sealer, let it dry for half an hour and sand the surface.*

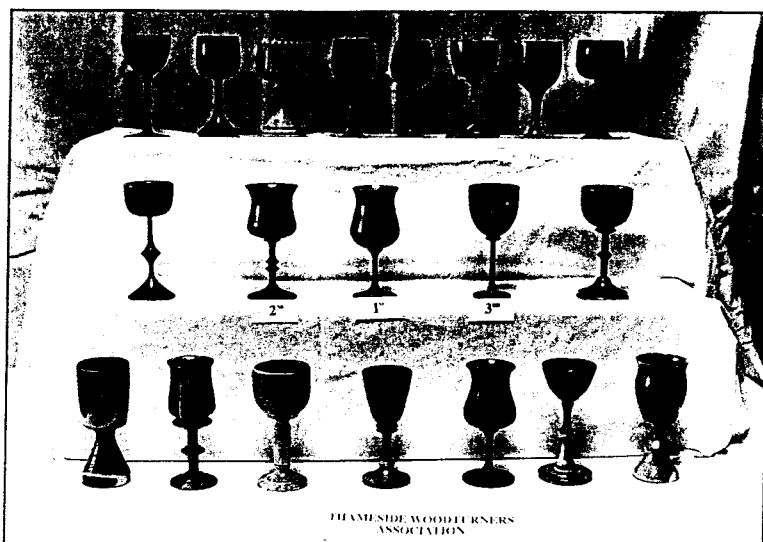

*For a Mirotone finish, I brush on three good coats, sanded between coats, with 0000 Steel Wool and leave until the next day before spraying. I use Danish Oil. You can use an oil of your choice as there are a lot of good oils on the market.*

*The most important thing is that the sanding of your work is perfect before applying ANY sort of finish.*

*If you have any questions, please don't hesitate to ring me.*

*Safe Turning. Russ.*

**AN ARRAY OF GOBLETS**  
 by the Thameside Woodturners Association  
 from the Newsletter of the Association of Woodturners of  
 Great Britain. Issue No 30, July 1994.

**NO-ONE CAN MAKE YOU FEEL  
 INFERIOR  
 WITHOUT YOUR CONSENT.**

Eleanor Roosevelt.

**LETTERS RECEIVED IN REGARD TO OUR TOY DONATIONS....**

**The Salvation Army, Balga Corps.**

"We would like to thank you for your donation of toys to be distributed to our many needy families. We wish you and your members a Happy Christmas and a peaceful New Year."

Ken Towler, Family Support, Balga Salvation Army.

**Princess Margaret Hospital.**

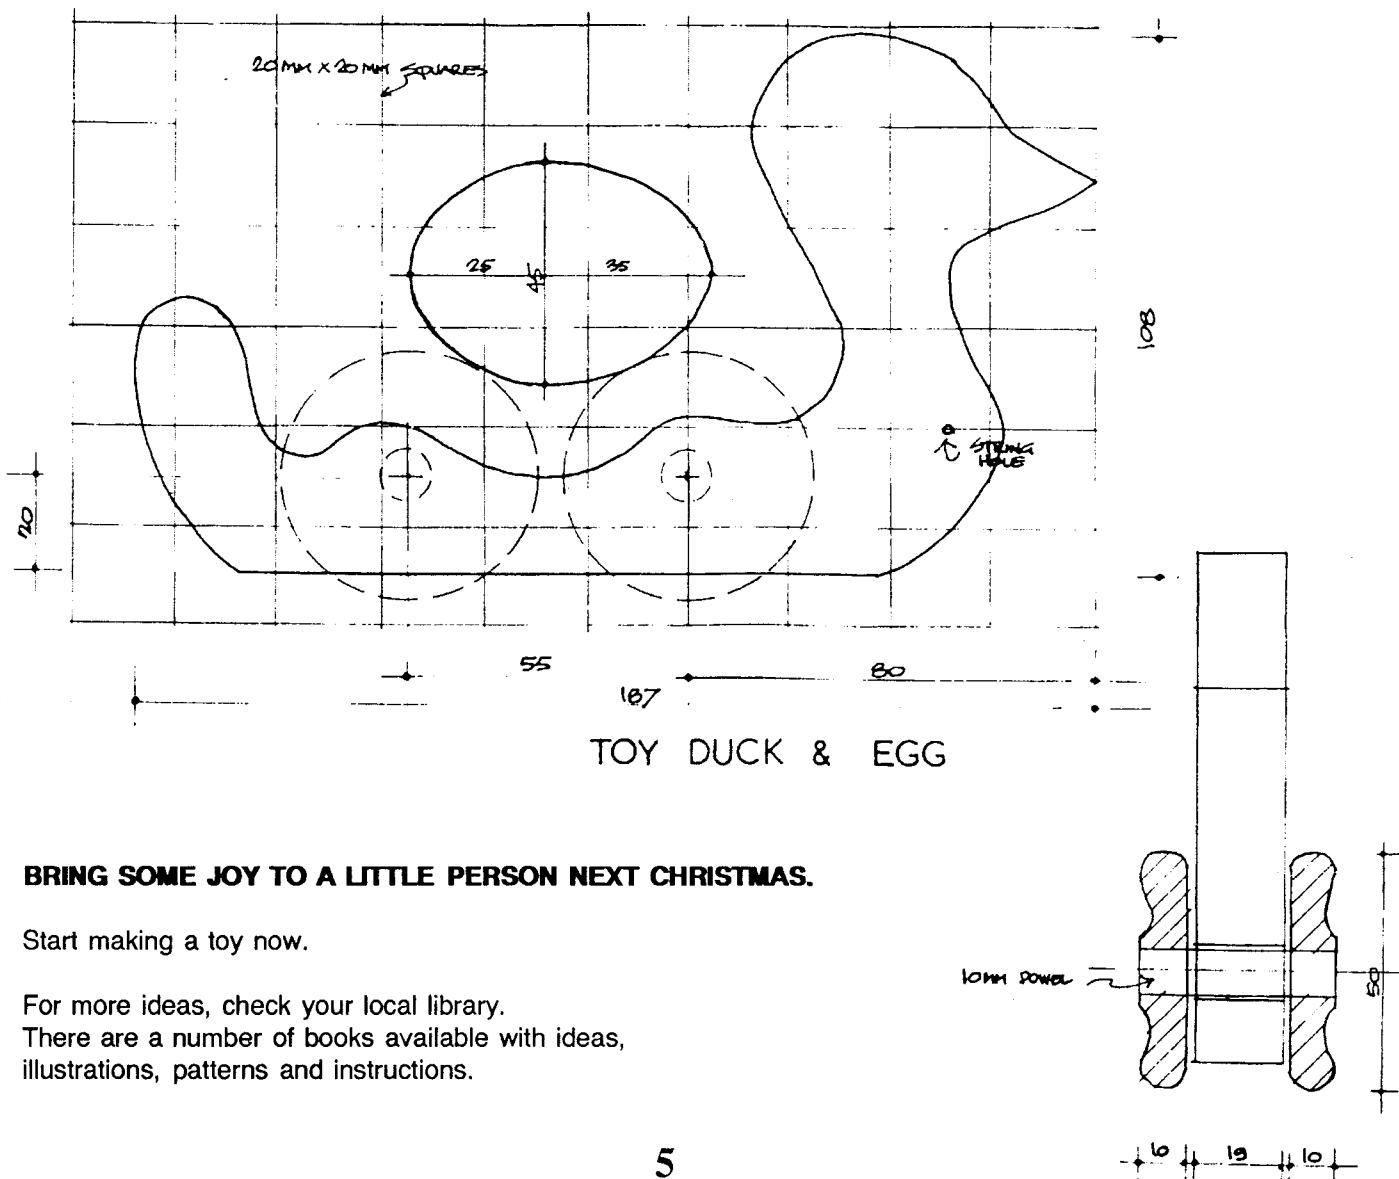

"Thank you for your kind donation of toys for the children at Princess Margaret Hospital. Your generosity is very much appreciated. Please be assured your gift will bring much joy and happiness to our sick children. Best wishes for Christmas and the New Year."

Terri Pens, Public Relations Manager, PMH.

**SOFT TOYS.** Elly tells us that last year the ladies contributed 320 soft toys including rabbits, dogs, cats, pigs, elephants, puppies, penguins and dolls to the collection. Thanks to Elly and the ladies for their great work.

**REMEMBER IT IS ONLY JUST OVER TEN MONTHS TO CHRISTMAS !!**

To get us started on our 1995 toy contribution, here is an idea for a pull along **TOY DUCK WITH AN EGG**, by Warren Newby, which has been reproduced with thanks to the Woodturners of the Hunter Coop Ltd, "Turnabout" Volume 11 issue No. 7, August, 1994.

**BRING SOME JOY TO A LITTLE PERSON NEXT CHRISTMAS.**

Start making a toy now.

For more ideas, check your local library. There are a number of books available with ideas, illustrations, patterns and instructions.

## PROSPECTIVE W.A.W.A. HEADQUARTERS.

Your committee has been examining the pros and cons of establishing a headquarters. The committee hopes that all members will give consideration to the points raised and express their ideas at group meetings. It is hoped that convenors will take a vote at group meetings soon after the publication of this Newsletter and so provide the committee with feed back.

Those who cannot attend a group meeting may register a proxy with their convenor, or, if not a group member, may record a vote with the Secretary.

## ACCOMMODATION REQUIREMENTS.

1. A meeting hall to seat a minimum of 250 people.
2. A workshop, 100M sq, extendible.
3. An activities room for Associate members 80 to 100M sq.
4. A kitchen and eating space.
5. A gallery to display work – for exhibition and possibly for sale.
6. A store to accommodate two chuck wagons and timber stock.
7. An office/Committee meeting room.
8. Toilets and showers.
9. Parking for 100 cars.

This accommodation would require about 6000M sq. ie, approximately 1.5 acres.

## OPTIONS TO BE CONSIDERED.

1. FREEHOLD. The initial cost would most likely be beyond the Association's resources.
2. LEASEHOLD. If suitable property could be found, cost may be higher than present costs in renting.
3. Obtaining a permanent space in a present or proposed Community Centre.

## POSSIBLE ADVANTAGES OF A PERMANENT HEADQUARTERS.

1. A permanent address which would be:
  - ◆ A central location for workshops and training.
  - ◆ A place of contact for interested people.
  - ◆ A library and video location.
  - ◆ Storage for the chuck wagons and equipment.
  - ◆ A gallery for display of work.
2. Could become an outlet for the sale of work.
3. Weekend workshop planning would be simplified.
4. Could become a tourist attraction.
5. Could become a centre for club activities or for the formation of a new group.

## POSSIBLE DISADVANTAGES.

1. Could lead to an increase in membership fees with a consequent loss of members.
2. Possible reduction of activity within local groups.
3. Less flexibility in location of workshops.
4. If opened for longer hours, would need staff or volunteers to manage, which could lead to business headaches.
5. May not be used sufficiently to justify the extra expense.
6. Would need fund raising activities to establish.

Please carefully consider all these matters, and any others that come to mind, before casting your vote.

---

## FOR SALE

SAWBENCH 10" Cast tilt top with 1.5 HP motor 6" Planer as one unit. Excellent condition. \$1285 or near offer.

Phone: Bob Jones (09) 527 4181

---

## WORKSHOP DUST.

*Many turners and other woodworkers tend to disregard wood dust and the effect it may have. Some people are affected more than others and some dusts are worse than others. For example, it is widely believed that Blackboy dust may be carcinogenic while others find Sheoak dust particularly irritating. People who suffer from asthma or have other breathing difficulties are also much at risk.*

*A look around any turning workshop will reveal how much dust settles over everything so it is not hard to imagine how much is inhaled if no precautions are taken. Watering eyes, running noses, sore throats and sneezing are often symptoms of the effects of breathing wood dust.*

*A big build up of dust in the workshop may also lead to an increased fire danger so it is important to:*

- (a) *Keep the workshop as clean as possible and do not allow a build up of shavings and dust.*
- (b) *Whenever possible, wear some sort of dust mask. These may go from a cheap paper mask covering the nose and mouth, through to the latest mask with a motor blowing filtered air direct to the face. These also have the added advantage of being a face shield as well as a filter.*

***If you are not taking precautions, maybe you should give it earnest consideration now.***
