## *Presidential Pronouncement*

Happy new year to everyone. May this year be one of enjoyment as we pursue the art of woodturning.

No doubt the weather lately has made an impact on the amount of time we spend in our workshops. I don't know if it has been a common statement, but have you had this said to you, by your wife, "you haven't been spending very much time in the shed lately"? The simple answer is "too dammed hot out there".

The list of competition items has been put together and published in the last newsletter. There are some interesting items there for everyone to attempt and hopefully submit an entry to the competitions. Members need to be complemented on the standard of skills reflected in the items submitted each month. If you have not entered a competition, I would encourage you to do so.

Soon each of our Groups will receive a copy of the WAWA Health and Safety Manual. Apparently we did have a similar document many years ago, but for whatever reason it was not made readily available. From time to time this document will have to be revised and re-published, to keep it up to date. Each new member will be given a copy in their membership folder. This has also been brought forward because our insurers have stated that any association without such a document will not be able to have insurance cover; so of course we want to comply.

Our recently ordered defibrillator has arrived, and will be included in the equipment that goes to our weekend

workshops along with the first aid kit. If there are other times where it could be on hand, then a simple request to the COM will make it available. Perhaps local Groups may want to purchase their own unit. The offer is still there for some financial assistance to purchase one, as has the Gosnells Group. It is a very easy machine to use, being self-diagnostic and voice prompted to guide the user through the process of administering help. Should the need arise, the time response is vital in the event of a possible heart attack. I trust that members will feel comfortable in the fact we have such an aid available, if needed.

That's about it for this newsletter. Start planning a design for that next competition piece. Hope to see you at the weekend workshops.

*John Gardiner* - President

## *Registrar's Ramblings*

### **New Members**

We would like to welcome the following new members to our Association:

Kenneth Morgan 2654 Collie  
Ardina Van de ven 2655 Swan  
Allan Miller 2656 Wandi  
David Browning 2657 Joondalup  
David York 2658 Gosnells

*Peter Povey* Membership Registrar

## *2013 Christmas Dinner*

Would all Convenors and Secretaries please note, that just to avoid clashes with Groups, the WAWA Christmas Dinner / Windup has already been booked for 14th December 2013.

## *News From The Groups*

### *Bunbury Bites*

This club is still having some teething problems in our new club house. Veteran turner Tom Brixey was demonstrating to club members his lathe skills on our new dancing girls platform, when it became obvious that because Tom was in a higher place than his audience, and in the absence of video cam, it became an exercise in Tom explaining his cuts. A bit like watching something on the radio. In his visual lateral thinking mode our Group Convenor, Kevan Hunt, called for any woodturners who had no further use for their house ceiling mirrors, to donate them to the club to put above the lathes, so we can see what on earth Tom Brixey does there.

December 2<sup>nd</sup> Our Xmas dinner at our new premises was an outstanding success, and everyone who attended enjoyed themselves. It is also our club awards day.

Most Attendance – Bob Sparrow

Most Show & Tell – Lyn Poli

Club Person of the Year –

Barrie Laidler

Most Competition Points – Peter Hill

Most Improved Beginner – Troy Hunt

John Shinnick Award Best Turner –

George Parke

Two Bunbury couples attended the WAWA Xmas Dinner at Bullcreek on December 8<sup>th</sup>. A good show as usual, but numbers were down. I was told that some clubs had their Xmas Dinner on the same day. I believe this is inexcusable and should not occur again. This is a state based voluntary organisation and

every effort should be made to make it work.

Our first meeting for 2013 is on February 6<sup>th</sup>. On February 16<sup>th</sup> the club shall host City of Bunbury Councillors to thank them for their generosity in helping establish the club house. We shall also present them with a lectern made out of Jarrah from the old Bunbury Jetty.

The group had the sad occasion to attend the funeral of our late member David Daniel (WAWA No 1430). David joined Bunbury group in 1995 and was a stalwart and took on various roles, including being club scribe to WAWA magazine for many years. David had an interesting pre woodturning life as an airline pilot in several countries and within Australia, with Australian National Airlines, before retiring. David was forever a gentleman and we are all the richer for knowing him. R.I.P.

Yours *Gee Pee*

### *Collie Calling*

I hope all members of WAWA had a safe and happy festive season, and wish everyone well for the year ahead.

November competition was won by yours truly (Ken Hands) with a large bowl made from Jarrah. The timber was square with down facing wings. I had to be really careful not to break the wings and my fingers. There were six entries in November and any one of them could have got the vote.

We had our Christmas break-up meal at our Corner Café. The meal was not half as good as it was the year before but it was great to see most of our members

there, and enjoying themselves. Our fearless leader Domenic Italiano achieved the most points for the year. A well-deserved win; well done Dom.

We look forward to 2013 turning projects.

Happy turning.

*Ken Hands* - Collie Scribe

### *Gosnells Gossip*

One of the highlights of our year is the participation of the Gosnells Group in the Have-a-Go Day celebration, held at Burswood Park on 14<sup>th</sup> November. This

is a marvelous opportunity to talk and interact with people of our age group, and introduce them to the wonderful world of wood turning. Hopefully this will result in approaches to their local groups. Crowd pleasing demonstrations included George Kieliger turning Christmas trees, Derek Pollard making egg cups and Mike Miller with tops, door stops and skipping ropes. A very successful day.

Our members also made a significant contribution to the WAWA Christmas toy appeal, items included 13 railway engines from Owen O'Neill, a bulldozer from Laurie Sutton, a detailed truck from Ivan Moro and a semi-trailer from Bill Wallbank. Our Christmas lunch was

held at the Elizabethan Village Pub on the 8<sup>th</sup> December. A very merry day, with a good time had by all who attended.

Kevin Cheetham took the opportunity to announce that Peter Price was the DUX of the six week course held at Gosnells, under the leadership of Chris Smith. Although Chris was absent from the luncheon, Kevin thanked him for his hard work and dedication to teaching our craft.

Kevin also announced the prize winners of the competition conducted over the year, congratulating them, and awarding their certificates and prize monies:

Advanced : 1<sup>st</sup> Derek Pollard,  
2<sup>nd</sup> Chris Davis & 3<sup>rd</sup> Owen O'Neill  
Intermediate : 1<sup>st</sup> Peter Price,  
2<sup>nd</sup> John Gardiner & 3<sup>rd</sup> Derek Beer  
Novice : 1<sup>st</sup> Colin Moth,  
2<sup>nd</sup> Bill Wood & 3<sup>rd</sup> Brian Caplen.

The last meeting for the year was on 12<sup>th</sup> December which saw the completion of our major project of the year. This was making skipping ropes for disadvantaged children in Thailand. The project is in conjunction with our hosts Southern River College. Kevin Cheetham read out a letter of appreciation from the College, thanking us for our contribution to their Graduation Ceremony and the spirit of co-operation and goodwill that exists between the College and ourselves.

*Peter Pickering*

### ***Mandurah Memo***

The completion of our Novice course was celebrated at a "Graduation Night" on 20<sup>th</sup> September with fish and chips,

and drinks. The Novices were presented with their Certificates, with the work they completed during the course being on display. The evening ended with a quiz and reverse raffle with suitable prizes. It is planned to run another Novice Course in July next year.

Several of our members attended the demonstration at Manjimup by Graham Priddle on 10<sup>th</sup> October. Many thanks to Manjimup for organising this event.

Members of our group were actively involved in supporting demonstrations and displays of work, at the following venues later in the year:

Manjar Markets - Sundays on the  
foreshore in Mandurah  
Bridgewater Lifestyle Village on 11<sup>th</sup>  
November  
Mandurah Heritage Museum on 17<sup>th</sup>  
November

During the year the members of our group were asked to make small bowls for filling with lollies for the Silver Chain organization in Mandurah. The bowls were filled with lollies and wrapped in cellophane and ribbons, at our meeting on 8<sup>th</sup> November. The bowls were later presented to the Silver Chain by Tom Hardy.

Recently we have been fortunate to receive two lathes donated by ex members of our group. The lathes are a Nova 300 with a 2100mm bed and a Carba-Tec basic lathe suitable for beginners. Due to space restrictions they have been placed with members who have kindly offered the space, until we acquire more permanent accommodation.

The group held our Christmas Dinner at the Bendigo Stadium in Mandurah on Tuesday 11th December. This was well attended by members and partners, and

we were fortunate to have John Gardiner and his wife in attendance.

John kindly presented trophies to prize winners who were successful in group competitions throughout the year. The night was a great success and enjoyed by all who attended. Many thanks to Harry Butler for making the trophies, and Len Starkey for engraving them.

John McQuade

### *Manjimup Matters*

In October we were very privileged to host Graeme Priddle at a workshop attended by sixty two fellow woodturners.

Graeme has definitely got the gift of the gab, which made the demonstration very interesting as well as informative. Add to this his creative skills, which has made him one of the very highly sought-after international demonstrators, and therefore he provides everyone with the sort of inspiration we all need.

Graeme began his presentation with a timely reminder about lathe safety, especially that familiarity breeds contempt.

He told of two turners who had lost their lives by errors of judgement in their respective studio/sheds. None of us have been at it too long that we don't need a reminder about safety. It is so important, and I am sure all who attended will go home just that more aware.

Taking a piece of Sheoak, Graeme, demonstrated his technique not only of turning but also his very interesting sharpening methods. This was the beginning of a very high class act producing a piece that now sits with pride of place in our workshop. Firstly he turned the base of the bowl, virtually using just one tool.

He then formed the top, made a small hollow, and prepared to embellish it. Graeme formed a wire scroll for his pyrography and made it look easy as he embellished his piece, whilst getting an even spread over his work.

As usual our ladies, led by Dianne, providing a sumptuous spread for morning and afternoon tea, and an absolutely fabulous lunch.

Whilst the task of hosting an international turner like Graeme Priddle may seem beyond the realms of a small group like ours, we stayed focussed throughout. We kept one of the aims of WAWA uppermost in our minds "To Promote Woodturning", and that is exactly what we did. When we commenced arrangements to host Graeme, it became obvious that we would not be able to comply with the insurance requirements of WAWA, and a decision was made to run this workshop as a Collaboration event. As we already had the Town Hall booked for the event it then became

very easy for us to ensure that the event went ahead. To Rob Jones and the collaborative group, our heartfelt thanks for making it so easy to allow sixty two of our fellow woodturners the opportunity to see Graeme Priddle demonstrate. Whilst we had to use private gear it was thanks to Harold that all of the equipment was supplied. Whilst the AV gear was not quite as sophisticated as that in the WAWA trailer, we did manage. The lighting we used was far superior to the old fashioned lights which cooked the demonstrators in Busselton. Thanks from us all, to our stalwart secretary Yvonne, who never ceases to amaze us with her brilliant organisational capacity. I am very pleased that WAWA COM are continuing talks with the Collaborative group, because we have so much to gain working together.

Towards the end of the year we demonstrated at the Quinninup Market day. We also had a contingent that went to the Busselton workshop, which was very well organised, and one which we all enjoyed. Our congratulations to the Busselton members. Our final "visit" was the Manjimup Cherry Festival, at which we demonstrated and displayed our wares.

To all of those that make things happen, especially Rob Jones I dips me lid.  
Be safe please.

Age

**Editor's / Vice President's Note:**

*The difficulty alluded to above, in gaining WAWA's sanction for the Graeme Priddle's demonstration, was due to his lack of professional insurance coverage,*

*which is cost prohibitive for him, once he leaves New Zealand.*

*The Committee of Management has previously requested that Groups ensure that all demonstrators have comprehensive accident/liability insurance. The COM has an obligation to ensure that all members in an audience at any of the Association's meetings or functions, are covered by insurance, in the event that an accident occurs. This is also just as relevant for a demonstrator, who could suffer considerable financial hardships, if they were forced to pay damages to another person at a function, following an accident.*

*All regular WAWA members have automatic insurance coverage, and if a guest (non-professional) demonstrator does not, it is easily overcome by the person signing up for an annual membership to WAWA. The cost of \$95 can then be paid by the Group in question, and is normally easily defrayed over the expenses of an individual workshop. It is a very cheap option for "complete peace of mind".*

*Unfortunately, if the demonstrator is a professional (ie. being paid for their services), then our insurance cover is not applicable, as it is specifically tailored for non-profit organizations.*

## *Melville Mutterings*

November 14<sup>th</sup> – Monthly “hands- on” day (they seem to come around so quickly) under Norm’s control, with the project being Christmas Baubles (that silly season is looming again). Good participation with a variety of designs provided by Maestro Norm. The usual enthusiastic participation with creditable results generally. These days are proving extremely popular, with skills development apparent throughout the membership

November 21<sup>st</sup> – Today’s presentation was from Bill Power, on his approaches to segmented bowl rims. A very interesting and detailed address on his segment cutting, layout and gluing of the segments prior to attaching to the bowl blank, which can be either pre-turned or unhollowed. In all cases the result is very appealing and highlights grain structures and alternate timber colours etc. Well presented Bill.

November 28<sup>th</sup> – Demonstrator for the day was one of our newer members, Frank Dymond. He opened the session with a brief showing of photos from his fairly recent trip to Canada. Very interesting

and covering a range of topics/sights.

Frank then proceeded to demonstrate his method of turning small wooden dolls on a Christmas decoration theme. They included both sexes, and were in various postures, ranging from upright and very “sober” to slightly “under the weather”. Very well presented and well received.

December 5<sup>th</sup> – Final meeting for 2012, apart from our Christmas luncheon on 13<sup>th</sup> December. But today was very much a social day, with a display of toys and gifts members have created throughout the year. There were small bowls filled with confectionary which were presented to the Silver Chain representative, for distribution to nursing home residents. Numerous toys were divided between a local charity selected by the group, and to WAWA for the usual annual Christmas distribution. A light morning tea was also provided, with members reminded that we reconvene on January 8<sup>th</sup>, for our 2013 program.

December 13<sup>th</sup> – Our traditional Christmas “knees up”, with in excess of 90 members and partners/wives, together with some widows of past members, gathering at the Kardinya Tavern for an

extremely social lunch. Convenor Dennis thanked members for their contribution. A virtually never-ending free raffle during the meal must have almost successfully depleted wine stocks in the vicinity, although a small number of members did not have their tickets drawn. Better luck next year; its only a few week away !! A very good venue with a great meal provided by efficient, attentive and friendly staff.

January 9<sup>th</sup> - Our quarterly General Meeting, followed by show-and-tell, which was predominantly Norm Gratte's different interpretations of (Neil Scobie inspired) cone shaped vases on three legs.

*70M108P*

### *Swan Snippets*

Hi Everyone

November 6<sup>th</sup> - Brian Kirkby showed how to make a salt and pepper shaker, which are always a useful present.

November 13<sup>th</sup> - Ian Moss demonstrated an inside out method of making seed pods. Simple but elegant.

November competition results:  
 Open        1<sup>st</sup> Bruce Shephard  
               2<sup>nd</sup> Noel Moyes  
 Novice      1<sup>st</sup> Bud Cooke

Nov 20<sup>th</sup> - Noel Moyes gave an interesting talk and demo on sharpening and an added emphases on buffing, which can achieve a much better finish.

Nov 27<sup>th</sup> - Ted Stewart-Wynne made a useful item, being a hogs hair brush to dust down computers and keyboards.

December 4<sup>th</sup> - It was good to see Eric Walker back demonstrating again after an illness. He has lost none of his turning skills or scathing wit! Eric made a couple of small items suitable for short demonstrations for the public, so as to keep their interest and use as give a ways. First was a handle to carry plastic shopping bags and secondly, small natural edged mushrooms.

Dec 11<sup>th</sup> - A very effective and interesting demo on making Celtic knots by Brian Kirkby.

This months' competition was for the best item turned in the last 12 months.

Novice	1 <sup>st</sup> Kevin Mort
	2 <sup>nd</sup> Ted Gardan
	3 <sup>rd</sup> Edina Van De Ver
Intermediate	1 <sup>st</sup> Mike Howard
	2 <sup>nd</sup> Bud Cooke
Open	1 <sup>st</sup> Joe Clark
	2 <sup>nd</sup> Ian Moss
	3 <sup>rd</sup> Brian Kirkby

Dec 18<sup>th</sup> - For our last meeting of the year, Ian Moss fashioned a very practical item in a large wooden spoon, which would grace any kitchen.

*Bob Jones*

### *Toodyay Tattles*

Well, we have had interesting weather in the Avon Valley, ranging from storms which dropped 70mm of rain in a short time, to fires from lightning strikes, to 43 degree days.

We had a break from Woodturning from the 19<sup>th</sup> Dec to the 20<sup>th</sup> January, to let all our Christmas spirit out of our systems.

We have recently had more trouble with our Carba-Tec Mini lathe with the variable speed and reverse switch. The forward motion switch played up again for no apparent reason, and has since been repaired and is in action again.

We also purchased another Woodfast lathe that was advertised in the last WA-WA magazine. So this now gives us seven lathes in our shed.

There was a lot of activity in the making of potpourri bowls of late, for Christmas presents, and quite a few went to England. It seems that at Toodyay, they were the in thing for Christmas. It was interesting to see the different designs, and timbers used with great effect.

Our secretary Andrea had spoken to Share and Care in Northam, as to people who would not receive much at

Christmas, of which there were quite a few. It was decided that we would make as many little bowls as we could, that would contain a few sweets, for Share and Care to give out. We managed 27 bowls, and Woolworths in Northam donated the sweets to fill these gifts. I believe that they went down a treat.

We also had a barbecue lunch late in November, to say goodbye to Bill and Christine Beswick, as they have now moved to Wagin.

We didn't have a Christmas wind up, but will start the year with breakfast together.

Well, that's about all from the Tattler for now, and so I will say cheers until next time.

*The Tattler*

## *Joondalup/Wanneroo Journal*

After a busy two months, there is very little to report so this journal will be very brief. Toys have been made and distributed. Christmas and new year celebrated with families, and 2013 is on it's way at ever increasing pace.

December competition was for the Best Turned Item in 2012 (but not previously shown). Beginners division was won by Ron Van Velzen, and the experienced division was won by Graham Turner, with Barry Cobb and Graeme Draper taking 2<sup>nd</sup> and 3<sup>rd</sup> respectively. Unfortunately I was absent and cannot describe the turnings.

As usual, our January meeting will be a BBQ, to be held at our home this year, with partners in attendance. Competition item is a Natural Edged Bowl. This will take place on Sunday 20<sup>th</sup> January, so while it has not yet happened, it will be over before you read this report. That's all this issue, as I have to go and clean up the shambles posing as my workshop, before Sunday.

*Andy Hill*

## LATHE CARE & MAINTENANCE

In recent times I have been asked on two occasions about the need or desirability of the leather washer on the headstock spindle.

The answer is quite simple- it is a hang-over from the 'old Woodwork Teachers in High School days'. One only had to be caught once when by accident or '**other wise**' a student turned on the lathe with the faceplate (*no fancy chuck in those days*) only partly screwed on. The result was that the work spun on with quite some force, jamming it on the spindle. Personally I have had to dismantle the whole headstock, remove the spindle or shaft and get the oxy plant to remove the face plate.

The use of a leather or 3/16 plywood washer soaked in oil gave you some chance of recovering the situation.

**However, on larger diameter work, this addition can cause vibrations to occur whilst turning**

The other situation where a 'washer' of some sort is necessary, is when the face plate or chuck does not seat up against the spindle flange ie. *the spindle thread is 'too long'*.

In this case the 'washer' must be **metal**.
