

The Woodturners Association of Western Australia (Inc)

Life Membership

Bruce Jackson - 2174

Bruce joined WAWA ten years ago (2006) and has been an active member since then.

As a group member, Bruce has been the competition coordinator for seven years and has been tireless in encouraging members to improve their woodturning skills through competition. He has also been a Mandurah committee member most of his ten years and has been actively involved in the tutoring of new members in all that time.

Bruce and his wife Sam have supported the Mandurah group in many social and fund-raising activities through organising and participating whenever possible.

Bruce took over as the WAWA competition coordinator six years ago and became a member of the Committee of Management at the same time. He is currently a member of the COM but is stepping down from the Competition Coordinator position this year. During his time as coordinator, Bruce has introduced changes and improvements to the competition system that have helped to increase the participation by members.

Bruce has been collecting and selling timber and blanks for just about all the weekend workshops for approximately five years as a service to all members. Bruce has always been happy to help individual members with their wood requirements for special projects and also to supply bulk lots to groups for special projects or for beginners' classes.

Bruce has given, and still gives, all that he can to help the Western Australia woodturning community, and anyone else who comes into contact with him.

I believe Bruce has given service to WAWA and the Mandurah Group well beyond that of the majority of members and is worthy of consideration for Life Membership.

Presented by Harry Butler (Mandurah Convenor) 2018
