Observations from Toodyay Tattles

Five members eventually made the trip to the AGM, and weekend workshop at Wandi on 21st September; more had originally planned to do so, but you know how it goes. We managed to completely blind-side **David Eyres**, in keeping his nomination for Life Membership wrapped in secrecy. The Avon mob are delighted that David was granted Life Membership, as he truly deserves it., Congratulations David!!

VALE 10th May 2021

Initially **David Eyres** was a member of the Melville group and later a dedicated Avon group member. An active committee member of both groups and a talented woodturner. He will be sadly missed by his friends and fellow turners from both groups. He will be remembered as a gentleman, a dedicated member and talented woodturner.

From Avon

It is with sadness that we start these notes mentioning the passing of our esteemed member and Life member of WAWA, David Eyres.

David has been a member of Avon ever since he came to Toodyay. I am not sure of when David actually came amongst us, but he has passed on a lot of knowledge on over these years. He has instructed a lot of new members of our club over the years as well. David was a good turner and in later years when turning was too much for him he would stand and watch and just give that little bit of advice that improved one's turning.

We christened him Grumpy, but only to stir him up, and we always got a rise out of him with this, but he always gave as good as he got.

I personally, as well as a lot of others, had a lot of great times with David.

Even to demonstrating at Dowerin Field Days for a couple of years among other demonstrations.

We will miss having him around. The Tattler
