## News from the Bunbury Group

History Book - Over the past year Don Wilson member 3025 has been working on gathering information and compiling a history of the Bunbury Group. Don presented a copy of the book to the group and to all those that supplied him with the information. Thank you, Don.

Show and Tell for March was held this week. Although numbers were down, we had an interesting meeting with a demonstration from Don Wilson.

He told us how he started inside out turning and showed how he learnt to refine the way designed using the 2-thirds-1-third rule.

Don also explained how there are different ways to hold the

pieces together and also, the centres that were best to use.

Thanks Don for the work that went into preparing for the demonstration.
